

Trainer Development and Certification Course (TDC) and Safe and Secure Approaches in Field Environments (SSAFE) - April

A Training of Trainers programme to certify UN security professionals to conduct security courses.

**#Safety & Security #Self-awareness #Simulations & Scenarios #Standard Operating Procedures #Training methodology
#Training of Trainers (ToT) #face-to-face #Up to 1 week #Turin Campus**

Introduction

With the aim of creating a pool of trainers qualified to deliver different safety and security training programmes worldwide, the UNSSC and UNDSS have jointly designed and developed the "Trainer Development and Certification Course (TDC)". Drawing on the experience of the SSAFE ToT and STOCC programmes, TDC is based on identified knowledge, skills and attitudes required for the planning, delivery and review of security training.

TDC+SSAFE represents the base TDC (5 days) with the SSAFE TDC add-on (2 days). The TDC covers the material in the following UNDSS courses:

Local Security Assistant (LSA)

Security Certification Programme (SCP)

Individual First Aid Kit (IFAK)

Women's Security Awareness Training (WSAT)

TDC+SSAFE is an assessable course but, being competency-based, it is not competitive. Rather, participants are required to deliver a number of short training sessions and complete a theory examination in a constructive and supportive environment.

Where Turin

When 21 Apr - 27 Apr 2018

Fee 4000 USD

Duration 7 days

Enrollment deadline 07 Apr 2018

Language English

Objectives

Upon successful completion of this course, participants will:

- Be equipped to effectively deliver the standard SCP, LSA, IFAK, WSAT and SSAFE training curricula using adult learning techniques (see individual course eligibility criteria below);
- Form part of a pool of UN TDC+SSAFE trainers who are responsible for training UN staff and associated personnel in their countries and/or duty stations.

Course Contents

Participants are exposed to adult learning styles, training methodologies and techniques that underpin each of the UNDSS courses. Participants are also provided with the resources and role players required to design and run vignettes and scenarios which relate directly to standard SSAFE modules.

The TDC course is focussed on security training and designed for UNSMS personnel that will be both engaged in the delivery of security training in the near future and potentially available as a trainer resource upon which UNDSS may draw to deliver security training. The course will expose participants to materials from LSA/SCP/WSAT/IFAK.

How to become a trainer

To become a trainer for UNDSS security courses, the TDC course is the current path. UNDSS is in the process of considering an evidence-based process by which experienced trainers may be able to apply for recognition of their knowledge and skills.

There are no prerequisites to attend and complete the TDC course, only that participants who are currently or likely to be engaged in delivery of UNDSS security training.

How to lead the delivery of a course

The following specific individual course requirements only arise later when successful participants want to go on to lead the delivery of specific courses:

Local Security Assistant

- Must be currently in a security professional role, including training officer, LSA, FSCO, SA or similar/equivalent
- Proposed course/s must be approved by TDS with at least 60 days' notice
- Participant list, certificates and database coordinated by TDS

Security Certification Programme

- Must be currently in a security professional role, including training officer, FSCO, SA or similar/equivalent
- Must have successfully completed an SCP course with a grade of Fully Competent or higher
- Proposed course/s must be approved by TDS with at least 60 days' notice
- Participant list, certificates and database coordinated by TDS

Women's Security Awareness Training

- Must identify as a woman
- Must contact the relevant focal point to discuss potential courses
- Should currently be in a UNSMS role that has some security responsibilities
- Proposed course/s should have curriculum supplied to TDS and be in the global calendar
- Participant list, certificates and database coordinated by TDS

Individual First Aid Kit

- Must have successfully completed the IFAK course
- Proposed course/s should be in the global calendar
- Participant list, certificates and database coordinated by TDS

Safe and Secure Approaches in Field Environments (if 2-day SSAFE TDC add-on offered)

- Must use curriculum approved by TDS (approval process requires at least 30 days' notice)
- Proposed course/s should be in the global calendar
- Participant list, certificates and database coordinated by TDS
