**Strategic Foresight for Prevention**

SUSTAINING PEACE UN 2.0

					
<b>LANGUAGE</b> English	<b>DURATION</b> Four weeks	<b>ENROLL BY</b> 25 Jun 2025	<b>PRICE</b> 1,250 USD	<b>LOCATION</b> ONLINE	<b>TARGET</b> Everyone

 **CONTACT** [peacesecurity@unssc.org](mailto:peacesecurity@unssc.org)

This four-week introductory course will allow participants to familiarize themselves with fundamental strategic foresight tools, methodologies and the design processes necessary to conduct informed analysis for conflict prevention and sustaining peace. The course will combine self-paced modules with live weekly webinars, giving participants the opportunity to interact with each other and the tutor, and share experiences and learnings from across United Nations (UN) entities and key partners.

## Introduction

The [New Agenda for Peace](#), the twin resolutions on sustaining peace, and the [2030 Agenda for Sustainable Development](#) represent system-wide frameworks that place prevention as a key priority and shared responsibility for the UN. The concept of sustaining peace, in particular, puts emphasis on a continuum of preventive actions that cut across all pillars and workstreams of the UN system, from humanitarian action and peacekeeping to peacebuilding and sustainable development. Preventing the outbreak, escalation, continuation and recurrence of conflicts is a hugely ambitious task, but a more forward-looking, integrated, strategic and coherent approach across and beyond the UN system can lead to the achievement of a sustained peace.

Every day, the UN is called to take decisions whose impact will affect the lives of millions of people who are the direct beneficiaries of our collective work as international civil servants. In today's fast-evolving world, foresight is increasingly recognized as an organizational capacity that the system can use to gather and process information about the future operating environment and make informed and more effective decisions. Building on the [UN 2.0](#) and the New Agenda for Peace, the programme will help participants develop foundational knowledge and skills to navigate uncertainty and embody the change needed to adapt to new peace-and-security risks and opportunities. It will offer a joint space for experiential learning, promoting open-mindedness, adaptability, and innovation.

# Objectives

Upon successful completion of this programme, you will be able to:

- Understand fundamental concepts related to strategic foresight for prevention as relevant to the UN prevention agenda
- Apply some of the most widely used strategic foresight techniques and methodologies, including horizon scanning, three horizons, futures wheel, futures triangle, causal layered analysis, as well as scenario building to better respond to possible threats to peace
- Strengthen an anticipatory mindset for thinking and acting more systematically long-term, thus dealing more effectively with uncertainty
- Analyse results to inform decision-making and strategic planning for early warning and conflict prevention

## Course methodology

UNSSC online courses are designed to deliver maximum learning outcomes through carefully chosen high-quality learning materials. Our facilitated online courses combine self-paced study modules with applied learning components, such as case studies and interactive exercises tailored to the needs of the professional interested in deepening their knowledge on a particular subject matter.

Participants will benefit from live moderated webinars, which feature valuable input from renowned subject matter experts and allow real-time dialogue with high-level speakers. Webinar recordings are made available to ensure that participants have a flexible and seamless learning experience.

An expert facilitator guides and assists participants throughout the course and provides real-time feedback on activities and exercises. Our user-friendly social online learning platform provides participants with the opportunity to connect with peers from diverse organizational backgrounds, fostering peer-to-peer learning.

UNSSC online courses give learners the opportunity to complete activities when it best fits their schedule. Participants are largely free to determine their own weekly study plan. Lasting four weeks and demanding three hours of study per week, UNSSC online courses incorporate the same high academic rigour as any UNSSC face-to-face programme.

## Course contents

Preparatory Week (23rd - 27th June, self-paced): Strategic Foresight Fundamentals.

### **Weekly online webinars every Wednesday (2 hours):**

Week 1: Framing Strategic Foresight for Prevention and Understanding Your Uncertainty Tolerance

Week 2: Making Sense of Change

Week 3: From Making Sense of Change to Imagining Possible Futures

Week 4: From Imagining Possible Futures to Taking Action

## Target audience

UN staff from the secretariat, agencies, funds and programmes and partners working on prevention through political, context and situational analysis, good offices, mediation and conflict-sensitive programmes

## Cost of participation

\$1250
