Discover the new individual subscription to the Blue Line, UNSSC's value-driven learning community of over 60,000 UN colleagues created by the UN, for the UN to support personalized and self-directed learning for all UN personnel.

With the new individual subscription to the Blue Line, you gain access to a personalised, self-directed learning journey built around more than **230+ modules and tools**. It evolves with your needs, supports each stage of your UN career, and keeps you ready for emerging challenges. Investing in your development today is an investment in the UN of tomorrow.

Introduction

As the UN80 process calls on every UN professional to reimagine how we lead and deliver, one truth stands out: continuous learning is your most powerful asset. UNSSC puts you in control of your own learning, providing access to a unique collection of modules and tools designed by the UN, for the UN. Tailored for UN personnel who want flexibility, relevance and career support, this subscription gives you year-round access to a curated learning experience that evolves with your professional journey.

Objectives

Upon successful completion of the programme, participants will be able to:

- Translate vision into action by planning strategically, managing for results and allocating resources wisely.
- Communicate with impact and build strong, trust-based relationships with colleagues and partners.
- Lead high-performing teams through effective motivation, coaching and performance management.
- Manage programmes confidently using proven leadership, delegation and risk-management practices.
- Leverage data analytics and evaluation insights to strengthen decisions, improve results and drive accountability.

Course methodology

The individual subscription offers:

- A micro-learning experience characterized by small knowledge units (modules and micro-lessons) where participants consolidate and reflect on learnings through the creation of micro-content (multimodal forum replies, blog posts, etc.).
- Scenario-based learning exposing participants to the unique real-life UN challenges and tasks;
- Consolidation of takeaways through reflective practices and social learning to facilitate information exchange and peer-to-peer learning.

You can start at any time, choosing the learning components that best fit your needs. Complete the modules and activities at your own pace, and sign-up for upcoming new modules.

The Blue Line provides **a structured, multi-reward learning experience**. As you progress, you will earn badges and certificates that reflect the competencies and knowledge you have acquired in your learning journey. The individual subscription will allow you to opt between single modules, curated learning paths and, by completing 25 modules, achieve the Extended E-Certificate in Leadership and Management.

Course contents

By setting up the Individual Subscription, you will gain one-year access to 230+ modules and tools organized in different catalogues and learning paths:

1. The **Catalogue on Leadership and Management.** A catalogue of modules and tools, firmly anchored in the UN System Leadership Framework, and covering different dimensions of leadership and management, including: leadership in the UN, people management, change management, innovation, programme implementation and resource management.
2. The **Catalogue on Data Analytics** designed to enhance the ability of UN personnel to analyze, visualize, report and communicate data effectively. It is geared to those in research, analytics and reporting, as well as those who wish to expand their knowledge and ability to access, use, interpret and communicate data.
3. The **Catalogue on Evaluation Management** designed to equip you with the full toolkit for effective evaluation management. From scoping and design to quality assurance and follow-up, you'll gain the knowledge and confidence to manage evaluations that meet the highest international standards.
4. The **Catalogue of Free UN Courses and Tools.** This is a continuously growing selection of free modules and tools designed in partnership with UN agencies and covering a broad range of topics of interest for the UN system, such as mental health, ethical leadership, artificial intelligence, and much more!

Once your Individual Subscription is activated, you will gain access to the Blue Line platform, where you will find the dedicated learning Catalogue available. From there, you will be able to add whichever learning paths, courses, and tools interest you to your learning plan. Please refer to the the "Catalogue" section inside the Blue Line platform for more information.

New modules and tools will be periodically released and made available to registered participants throughout 2026.

Finally, by joining the Blue Line you will be able to:

1. Enjoy free access to live events and webinars with subject matter experts
2. Access and download templates and how-to resources
3. Participate in dedicated UN Communities of Practice
4. Download "My UNSSC" mobile App with offline functionalities

Target audience

UN personnel at all levels.

Cost of participation

120 USD

Access is free for personnel from UN entities with a Corporate Subscription to the Blue Line. To check if your organization is included, please visit: https://www.unssc.org/blue-line/corporate-subscriptions
