As personnel of the International Seabed Authority, you can now enjoy unlimited access to all modules in the Extended E-Certificate in Leadership and Management (eCLM), as well as the Data Analytics and the Evaluation Management catalogues on the Blue Line global learning hub.

Introduction

The Blue Line is a UNSSC's value-driven learning community of over 60,000 UN colleagues, created by the UN, for the UN. Tailored for UN personnel who want flexibility, relevance and career support, this subscription gives you access to a curated learning experience that evolves with your professional journey.

Objectives

Upon successful completion of the programme, participants will be able to:

- Translate vision into action by planning strategically, managing for results and allocating resources wisely.
- Communicate with impact and build strong, trust-based relationships with colleagues and partners.
- Lead high-performing teams through effective motivation, coaching and performance management.
- Manage programmes confidently using proven leadership, delegation and risk-management practices.
- Leverage data analytics and evaluation insights to strengthen decisions, improve results and drive accountability.

Course methodology

The learning experience is structured around the following components:

- A micro-learning experience characterized by small knowledge units (modules and micro-lessons) where participants consolidate and reflect on learnings through the creation of micro-content (multimodal forum replies, blog posts, etc.).
- Scenario-based learning exposes participants to real-life challenges and tasks of UN managers.
- Consolidation of takeaways through reflective practices and social learning to facilitate information exchange and peer-to-peer learning.

You can start at any time and choose the learning components that best fit your needs. Complete the modules and activities at your own pace, and sign up for upcoming new modules.

The Blue Line provides **a structured, multi-reward learning experience**. As you progress, you will earn **badges and certificates** that reflect the competencies and knowledge you have acquired in your learning journey.

Course contents

Through the subscription, International Seabed Authority personnel can enjoy unlimited access to:

1. The **Catalogue on Leadership and Management.** A catalogue of modules and tools, firmly anchored in the UN System Leadership Framework, and covering different dimensions of leadership and management, including: leadership in the UN, people management, change management, innovation, programme implementation and resource management.
2. The **Catalogue on Data Analytics** is designed to enhance UN personnel's ability to analyse, visualize, report, and communicate data effectively. It is geared to those in research, analytics , and reporting, as well as to those who wish to expand their knowledge and ability to access, use, interpret, and communicate data.
3. The **Catalogue on Evaluation Management** is designed to equip you with the full toolkit for effective evaluation management. From scoping and design to quality assurance and follow-up, you'll gain the knowledge and confidence to manage evaluations that meet the highest international standards.
4. The **Catalogue of Free UN Courses and Tools.** This is a continuously growing selection of free modules and tools designed in partnership with UN agencies and covering a broad range of topics of interest to the UN system, such as mental health, ethical leadership, artificial intelligence, and much more!

Once your subscription is activated, you will gain access to the Blue Line platform, where you will find the dedicated learning catalogue available. From there, you will be able to add whichever learning paths, courses, and tools interest you to your learning plan. Please refer to the "**Catalogue**" section inside the Blue Line platform for more information.

New modules will be periodically released and made available to corporate subscribers and their personnel. The corporate subscription includes access to all free resources in the Blue Line.

Finally, by joining the Blue Line, you will be able to:

1. Enjoy free access to live events and webinars with subject matter experts
2. Access and download templates and how-to resources
3. Participate in dedicated UN Communities
4. Download the "My UNSSC" mobile App with offline functionalities

Target audience

International Seabed Authority personnel at all levels.

Cost of participation

Free for International Seabed Authority personnel (International Seabed Authority’s corporate email domain is needed to finalize the registration).
