

Foundational Course on the 2030 Agenda for Sustainable Development

8 May - 9 July 2017 (5 Weeks)
Online Course

An online course that introduces participants to key conceptual and practical aspects of sustainable development and Agenda 2030, while covering issues of means of implementation, localization of the agenda, and review and follow-up framework.

COURSE DESCRIPTION

The foundational course equips participants with a sound understanding of the concept of sustainable development as well as the vision and principles of Agenda 2030. It explores the three pillars of sustainable

development while taking a look at the inter-linkages between climate change, planetary boundaries, social inclusion and human rights. It also identifies key lessons from the implementation of the Millennium Development Goals and the significant differences in the new agenda.

Over a duration of five weeks, the various modules of this course will focus on the new elements of Agenda 2030; how to implement and develop strategies to localize the agenda; and the role of data in the review and follow-up framework.

OBJECTIVES

Upon successful completion of this course, participants will:

- Benefit from an in-depth understanding of the 2030 Agenda including the features and role of the SDG results framework, means of implementation and global partnerships;
- Be able to analyse the role of the UN as well as other stakeholders in supporting national implementation of Agenda 2030;
- Be equipped with an understanding the SDG review and follow-up framework;
- Demonstrate an improved understanding of the role they can play at a personal and

COURSE CONTENTS

Week 1: Vision and Principles of the New Agenda. Three pillars of sustainable development, including modules taking an in-depth look at topics such as climate change, planetary boundaries, social inclusion, and human rights.

Week 2: SDG Results Framework. Overview of the history of the SDGs and importance of a truly integrated approach to goal-based planning for sustainable development.

Week 3: Means of Implementation (Financing for Development, Global Partnership and Global Governance). Means of implementation and guiding principles related to the topics of finance, governance, and partnerships as they relate to the SDGs.

Week 4: Localization of Agenda 2030 and Design of National Strategies. Designing national and local strategies in alignment with Agenda 2030 including useful tools and also the role of technology and innovation in sustainable development.

Week 5 : Reviews and Follow-up framework. Agenda 2030's follow up and review system as well as a module on the data revolution as it relates to sustainable development.

TARGET AUDIENCE

UN staff and development practitioners.

REGISTRATION

The course fee is 500 USD. To register, go to <http://bit.ly/FC2017-2>
