**Organizational context:**

The United Nations System Staff College (UNSSC) is the UN’s system-wide knowledge management and learning institution created by the General Assembly to fostering a cohesive management culture across the UN system. UNSSC’s mission is to contribute to a more effective, results-oriented and agile UN through learning, training and knowledge dissemination. UNSSC is known for enabling the diverse staff of the UN system to learn together, share experiences, and formulate joint solutions to the challenges facing the UN. Beyond bringing together UN staff from across the system through its learning and training offerings, UNSSC’s comparative advantage lies in its ability to provide an inter-agency perspective based on its wide and varied engagement with different entities within the UN system and beyond, hence fostering unique dialogue spaces in the spirit of multi-stakeholder collaboration. Its programmes are funded from three distinct sources: participant fees, contracts with UN agencies/entities, and donor grants.

In Fall 2017 the College established the Knowledge Centre for Leadership and Management (KCLM) to consolidate its expertise in management and leadership development, align it with the UN System Leadership Framework recently adopted by the CEB, and grow its portfolio in this area. The objective of the Centre is to contribute to forging a common UN leadership and management culture for the 2030 Agenda by providing UN staff with world-class learning opportunities in core professional, management and leadership skills in line with the UN System Leadership Framework. KCLM is the largest team of learning specialists and professionals at UNSSC, committed to embodying the leadership principles and behaviours outlined in the UN System Leadership Framework in the way we work and learn together.
